OFFICE OF PETITIONS

Attn: Office of Petitions
Honorable Commissioner of Patents and Trademarks
Box DAC
Washington D.C. 20231

Sir:

The above identified application became abandoned for failure to file a timely and proper response to the Office Action. By phone consult on November 4, 2005, the Patent Office's Ms. Shirley Steel informed the applicant that this application was abandoned on June 11, 2002.

APPLICANT HEREBY PETITIONS FOR REVIVAL OF THIS APPLICATION

1. Petition Fee (37 CFR 1.17(m))

- ☐ Small Entity- \$ 640.00
☒ Small Entity Statement Enclosed Herewith
☐ Small Entity Statement Previously Filed
☐ Other than a Small Entity- \$ 1,280.00

☒ No Fee is Due as no breach of duty lies with the Applicant.

2. Proposed Response and/or fee

- ☐ The proposed response and/or fee to the above captioned Office Action in the form of: _____
☐ has been previously filed on _____
☐ is enclosed herewith

☐ The issue fee of \$ _____
☐ has been previously paid on _____
☐ is enclosed herewith

☒ Is not enclosed. The reason is: The Office Action predicate upon the Notice of Abandonment was never received by the applicant and it is therefore impossible to prepare a proposed response.

3. History

- (1) The present application was filed on March 26, 2001 (as evidenced by the Filing Receipt dated 05/07/2001, copy enclosed);
- (2) A Petition to Revive was filed on March 1, 2002, and was accompanied by payment together with the Missing Parts from the application (Copy enclosed);
- (3) The Petition to Revive of March 1, 2002, was received by the U.S. Patent Office on March 12, 2002 (evidenced by the enclosed copy of the Postcard);
- (4) A Change of Address was filed with the U.S. Patent Office on April 10 2003 (copy enclosed) and was received by the U.S. Patent Office on April 18, 2003 (copy of postcard enclosed);
- (5) A Status Request was filed on April 10, 2003 (Copy enclosed) and which was received on April 18, 2003 (copy of postcard enclosed);
- (6) A subsequent Status Request was filed on September 16, 2003 (copy enclosed).
- (7) On November 19, 2005, a phone consult was made with the U.S. Patent Office (703-308-2733) and the applicant was informed that the application was abandoned on June 11, 2002; the U.S. Patent Office representative suggested contacting Ms. Steele (703-308-9210 x 108). An attempt was made on 10/19/2005 and a message for Ms. Steele was left on the Patent Office's answering machine.
- (8) A phone consult was made with Ms. Steele on November 4, 2005, in which Ms. Steele confirmed the abandonment of the application on June 11, 2002.

4. Discussion

Since the Original Filing receipt, no other communications have been received from the U.S. Patent Office on this case. A thorough search of the file together with other files which would have required action around the date of the Abandonment (Copy of Docket for June 2002 enclosed) has been made and no Office Action or notices have been found.

It is well known that applications within the field of the Internet have a tremendous amount of delay associated with them. These cases have a pendency of greater than five years with the U.S. Patent Office so Applicant did not become dramatically concerned until recently.

Applicant has done everything possible to maintain cognizance on the application's progress, yet, without receiving any Office Actions or Notices from the U.S. Patent Office, it is impossible to expect the Applicant to be responsive.

Because of the above, in the interest of Justice, it is respectfully requested that a new Office Action be issued and that Applicant be given the opportunity to fully respond to this Office Action.

5. **Verified Statement**

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and, further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fines or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this verified statement is directed.

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15 (b).

PLEASE NOTE the following information about the Filing Receipt:

- The articles such as "a," "an" and "the" are not included as the first words in the title of an application. They are considered to be unnecessary to the understanding of the title.
- The words "new," "improved," "improvements in" or "relating to" are not included as first words in the title of an application because a patent application, by nature, is a new idea or improvement.
- The title may be truncated if it consists of more than 500 characters (letters and spaces combined).
- The docket number allows a maximum of 25 characters.
- If your application was submitted under 37 CFR 1.10, your filing date should be the "date in" found on the Express Mail label. If there is a discrepancy, you should submit a request for a corrected Filing Receipt along with a copy of the Express Mail label showing the "date in."
- The title is recorded in sentence case.

Any corrections that may need to be done to your Filing Receipt should be directed to:
